WHY TOP CRYPTO GAME ECONOMIES ARE FAILING

THEY ALL FOLLOW THE SAME PLAY TO EARN MODEL

- Need Fun Games First, Earning Second
- Poor In-game Economy Design
- Gamers thinks GameFi is boring
- Rug Pulls Are Greatest Obstacle

AXIE INFINITY	Players farm and dump their tokens to earn money over investors.
DECENTRALAND	Nothing to do without spending money other than walk around a virtual world.
SANDBOX	Same as Decentraland but can't earn anything without spending crypto.
SPLINTERLANDS	The cost of playing is too high for the quality of the game.
